

OUTDOOR READY

OUTDOOR ARCHERY BRINGS A DIFFERENT SET OF DEMANDS FOR THE ARCHER AND THEIR EQUIPMENT — HERE'S A SELECTION OF THE BEST OUTDOOR SHOOTING GEAR

SHOOTING JACKET

Summer might be approaching, but that doesn't mean you'll be shooting outside. The shooting bag from your locker stays in a cool, dry place until you can take your gear and equipment out to the outdoor range. It's not a bad idea to have the extra layer of your shooting jacket with you that has been designed to increase muscle support, reduce the support load, and allow you to stretch across the back, shoulders, shoulders and across the upper arms to avoid the stress with the muscles of your shoulder blades.

Available in sizes XS, S, M, L, XL, 2XL, and 3XL. Color options: black, yellow, and white/black.

BUCKET HAT

Custom chest-guard maker Artebo has released a new range of bucket hats, in a variety of materials. The soft shape and narrow, sloping brim keep it comfortable to wear and avoids any risk of string interference, as can be the case in larger visors.

They are available in a variety of materials: a new three-layer, 100 per cent waterproof ripstop laminate with an intelligent membrane structure that's designed to contract in low temperatures to keep more heat in, and expand in warmer ones to let more heat out; a laminate soft-shell with a fleece liner for colder climates; and a lighter breathable fabric for warmer temperatures that is nevertheless still water resistant.

SHOOTING SLEEVE

This shooting sleeve uses a fluorine-free fabric for an environmentally-friendly, breathable, water-repellent addition to your shooting apparel. Suitable for use on bare arms or over layers and jackets, it has a soft elastic grip at the top to hold it in place and is available in sizes XS to XXL.

FROM €13.99 - ARTEBO
